SHING LECK

ENGINEERING SERVICE
PTE. LTD.

BUILDING PARTNERSHIPS
THAT LAST

BUILT TO LAST

Over the past 30 years, Shing Leck Engineering (SLE) has built a strong reputation for providing plant construction and maintenance services for the Process Construction and Maintenance Industry in Singapore.

BUILDING PARTNERSHIPS THAT LAST

Founded in 1984 by Mr Nah Hui Hwa, SLE has emerged from its humble beginning as a sub-contracting company into a dynamic full-fledged engineering services contracting firm with an employee strength of over 250.

Since its inception, SLE is driven by the purpose of delivering responsive and innovative engineering solutions to address our client's needs while maintaining its position as a nimble and adaptable company. It is with this purpose in mind that SLE, in 2013, expanded its suite of capabilities to include scaffolding and paint & blast services. Over the years, our clients have continued to place their trust in us to get things done.

AWARDS & CERTIFICATIONS

SLE is committed to quality and excellence, and we are proud to have been conferred the following:

Today, SLE is the preferred partner for turnkey projects in the oil and gas, and petrochemical industries, and a single source provider for mechanical construction, scaffolding and paint & blast services.

We are specialists in green and brown-field plant construction, shutdowns and major turnaround revamps, and we pride ourselves in meeting our clients' safety standards, as well as being on time and on target. We boast a dynamic workforce that is committed to productivity, innovation and continued excellence. Fueled by a strong partnership with our key strategic stakeholders, we enable our customers to focus on their core competencies while we take care of the rest efficiently and productively.

MULTIPLE DIVISIONS, ONE FAMILY

Mechanical Engineering

- Green Field Plant Construction and Brown Field Turnkey Projects
- Piping and Steel Structure Fabrication, Erection and Installation
 - Flare Maintenance and Replacement
 - Storage Tanks Repairs and Tank Farm Maintenance
 - Plant Equipment Lifting and Installation
 - Pre-Commissioning and Commissioning Activities
 - Boilers Maintenance and Repairs
 - Structural Modifications, Additions or Repairs
 - Valve Change-Out and Servicing/Testing
 - Plant Equipment Disinvestment
 - Internal Trays Repairs / Modification Work for Columns, Vessels and Furnaces
 - Equipment/Parts Isolation and Replacement
 - Skid and Mobile Elevating Work Platform (MEWP) Operator Services
 - Installation of Static & Rotating Equipment

Scaffolding Services

- Provision of Design, Erection and Dismantling of Scaffold Systems

Paint & Blast Services

- Surface Preparations, Protective Coatings and Linings
 - Thermal Spray Aluminum Coating
 - Wet Blasting
 - Onsite Paint Spray Applications
 - Escoweld Wrapping
